DISPATCH TWO GIVES ANNUAL VESSELS TO HAVANA

Conditions on Charac-
teristics of Ra-
United States M-
Foreigners and Cubans Are
Apprehensive and Ask for
American Vessels

WASHINGTON, June 9.—The navy department tonight ordered Admiral Beaufort to proceed forthwith from West to Havana with one dispatch ship and one other ship. These orders were issued by the state department after the receipt of a dispatch from Minister Beaufort, reporting that conditions in Havana had assumed the character of a race war. It is probable that Admiral Beaufort, with the dispatch ship, will take the ship, the Washington, into Cuban waters.

Minister Beaufort's message said conditions in and around Havana had been menacing since Friday night, and that last night there were antinegro demonstrations of large proportions by responsible elements, and that there were clashes in every quarter of Havana.

He reported that the negroes were being goaded into violence, and that installation might have disastrous consequences. Americans and other foreigners and many Cubans, he said, were apprehensive and desired the sailing of an American war vessel. The state department has decided to have entirely to Rear Admiral Usher, commanding the fourth division of the Atlantic fleet, the disposition of the American marines that are to guard foreign-owned properties in eastern Cuba. That officer today communicated to the state department an abstract of reports he had received from the naval and marine officers throughout the island, and told that where each segment of marines had been stationed.

It is felt that, being on the scene, Admiral Usher should be given a free hand to deal with developments with-
out waiting authorization from Wash-
ington in each case requiring action.
A dispatch for protection came from
Havana, on the north coast of the
land. Americans and Norwegians
dining in the application for guards
at their plantation. As the gunboat
Ashville is nearly in Nipe bay, Cap-
tain Davis, her commander, will be
instructed to extend necessary pro-
tection.

DR. W. F. SLOCUM TALKS TO GRADUATING CLASS

Sports on "Call of God to
Men of This Century."
Music a Feature

President W. F. Slocum of Colorado college gave the annual baccalaureate sermon to the graduating class in Perkins hall yesterday afternoon. The music for the occasion was noteworthy, the college choir being augmented by that from the First Congregational church. The faculty, in cap and gown and hood, met at Coburn hall and marched in a body to Perkins hall before the ser-
mon. The room was crowded with

students and their friends, together with many other residents of the city. Dr. Slocum took for his theme, "The Call of God to the Men of This Century." Luke, 4:8—"Thou shalt worship the Lord thy God and him only shalt thou serve."

Following was the order of service: Organ prelude. Processional—259. "The Lord bless thee and keep thee, the Lord make his face to shine upon thee and be gracious unto thee, the Lord lift up his countenance upon thee and give thee peace." Psalm, followed by the Gloria. Anthem, "Hallelujah Chorus," from Handel's "Messiah." Prayer. Communion. Sermon. Prayer and Benediction. Recessional—260.

Dr. Slocum spoke in part as follows:

Centuries ago a boy of 12 came from his home in the north to a city which was the center of the religious and educational movements of his time. There arose in him a sense of duty, a consciousness of something outside himself, a consciousness of the larger and higher life, and he said, "I MUST. I must be about my father's business." The feeling of obligation had arisen in him. He returned to his home in the hills to take long years of preparation for his remarkable career. There was no hurry in his training for the work that demanded all the strength of his great soul.

At last, reaching the age of manhood, he comes to the opening of his career and to temptations that most great nature. He is the village carpenter, with the blood of kings in his veins. He has felt the call of the eternal God, but for him, as with all great men, there must be certain definite decisions which he must make. First, there is the temptation to make material things first, and the appeal of the senses. His reply is: "Man shall not live by bread alone." There is something higher than things material.

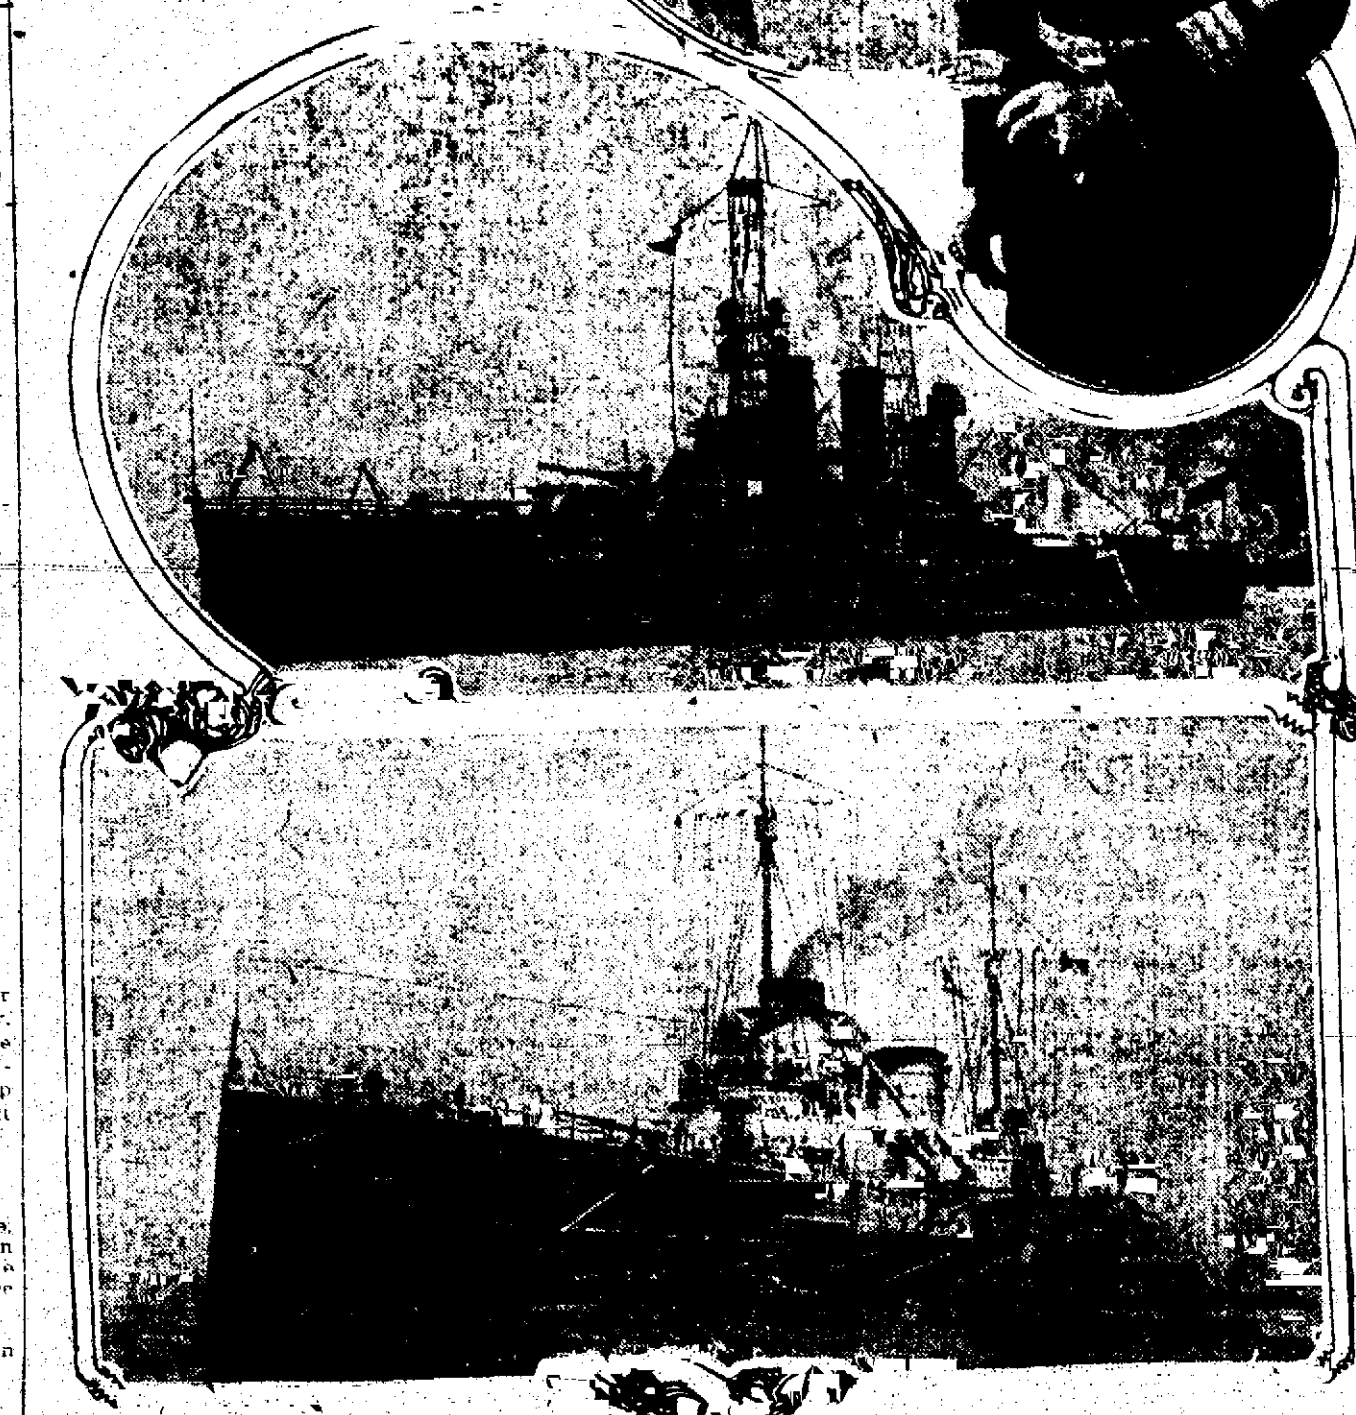

Secondly, there comes the temptation to adopt the methods of the world rather than those of God; to seek immediate results, to attempt by means

Insurrectos Burn Woman and Babies

PHOENIX, Ariz., June 9.—With a story of how his wife and two babies were burned to death in their home near Tepic by roving bands of rebels, George Arnold Brown, an Englishman, passed through Phoenix today on his way to Los Angeles, where he will lay down his arms.

Brown said the rebels set fire to his hacienda near Tepic in his absence and his entire family perished. The rebels then either killed or drove off all of Brown's livestock. He declared conditions in and around the city of Tepic and in the state of that name were horrible.

BELIEVES U. S. WILL HAVE PARCELS POST

WASHINGTON, June 9.—Legislation providing for a general parcels post throughout the United States and its possessions, except the Philippine Islands, is practically certain to be enacted by the present congress, perhaps before the conclusion of this session, in the opinion of Postmaster General Hitchcock.

He has urged upon congress the desirability of domestic parcels post because he believes it will aid substantially in the solution of the problem of the high cost of living.

In a statement today, he expressed the hope that the measure recently introduced by Senator Bourne, chairman of the committee on postoffices and post roads, might become a law.

In the judgment of the officers of the postal service, the Bourne bill represents the most scientific plan yet devised for a parcels post. It provides for a parcels service throughout the country, both on rural routes and city carrier routes. It consolidates the third and fourth classes of mail matter and raises the weight limit of parcels to 11 pounds, which is the limit of the international parcels post.

The rate to be charged for articles carried in the rural route service and city carrier service is 5 cents for the first pound or fraction of a pound, and 1 cent for each additional pound or fraction of a pound. For the general parcels post service, which covers all mail transportation other than local delivery by rural or city carriers, graduated rates would be fixed based on distance.

Six zones of distance would be established. The first would have a radial distance of 50 miles from the point of mailing; the second would include the area lying between 50 and 200 miles; the third, that between 200 and 500 miles; the fourth, that between 500 and 1,000 miles; the fifth, that between 1,000 and 2,000 miles; and the sixth, distances beyond 2,000 miles. The rate for delivery within the first zone is 6 cents for the first pound or fraction thereof, and 2 cents for each additional pound or fraction thereof. The rates would increase for each additional zone until the sixth, then reach a maximum of 12 cents a pound, the rate now charged in the international parcels post. The rate on the consolidated third and fourth class mail matter is fixed at 1 cent an ounce for not more than four ounces. Dis-
tributive parcels post stamps will be provided.

PROMOTER MEXICAN REVOLUTION IS ARRESTED BY TEXAS RANGER

EL PASO, Tex., June 9.—Gonzalo C. Enrile, deposed financial executive of the Mexican revolution, fleeing from the Mexican government, which charges Enrile with embezzlement of funds while consul under President Diaz at El Paso, Ariz., 18 months ago. His extradition on this charge would place him at the mercy of the Mexican government for his political acts.

Enrile handled the funds of the revolution for three months and admittedly made them many enemies, being finally repudiated by General Orozco.

Weak from two knife wounds and a bullet hole in his shoulder, sustained in an encounter with two unknown assassins in the city of Chihuahua three weeks ago, Enrile sought the intentions of the physicians and sought medical treatment in the United States. He applied to Marion Fletcher, the American consul in Chihuahua, for safe conduct in the United States, but the latter declared the matter outside his jurisdiction.

BURNS WILL TESTIFY IN TRIAL OF DARROW

LOS ANGELES, Cal., June 9.—William J. Burns, the detective, arrived today in Los Angeles to testify for the prosecution in the trial of Clarence S. Darrow, charged with jury bribery. Not until the arrival of Burns did it become known that he would be a witness in the case, as District Attorney Fredericks has stated in court upon several occasions that Burns had a contention with the case. The latter announced upon his arrival that his object in coming to Los Angeles at this time was to testify in the Darrow trial.

Mr. Burns declined to discuss the nature of the testimony he expected to give, but it is believed that it will consist of evidence concerning the alleged attempts by the McNamara defense, to corrupt witnesses who had been summoned to testify for the prosecution in that case. Asked about the statements made in court during the Darrow trial, that he had attempted to implicate Samuel Gompers, president of the American Federation of Labor, in the corruption of jurors and witnesses, alleged to have been practiced by the McNamara defense, Burns stated with a smile that he would tell all he knew when placed upon the stand.

The Darrow trial will be resumed tomorrow afternoon with Bert H. Franklin again on the stand, but his examination probably will be concluded after a few questions. Members of the prosecution announced today that he would be followed by P. J. Conney, a detective formerly employed by the McNamara defense.

GUARDS KILL ONE, WOUND TWO OTHERS

Prisoners Start Riot in Mess
Hall—Throw Dishes and
Food Around Room

NEW YORK, June 9.—A riot broke out today in the mess hall of the Federal House of Detention, a demonstration against the prison developed into a riot of the general mess hall as a result of which one prisoner was shot and killed and two others were wounded.

It is reported that a group of prisoners, serving a term of six and a half years for deserting and impersonating an officer, was the main body.

Nineteen hundred prisoners were sitting down to dinner shortly after 2 o'clock this afternoon when one of the men began a concerted demonstration. Not content with voicing their protest with shrieks and cat calls, the demonstrators began throwing dishes and food about. Some made a dash for the adjoining kitchen and began hurling heavy pots and pans around the room. These were driven out with hose shooting live steam, several of the rioters being severely burned. No sooner had the rioting started than the prison bell was sounded with the "lock up" signal.

The majority of the men, who had taken no part in the demonstration and were anxious to escape from the hall, made a dash for the three doors. At the first door, the men were met by a line of guards, their purpose being to keep the men in the mess hall and prevent the demonstration.

It was here that Lynwood, one of the rioters, was shot down. A guard's bullet pierced his chest and he died almost instantly.

The prisoners were quickly marched to their cells, but the rioters, even after being locked up, continued their shrieks of defiance and kept up their shouting at intervals until late tonight.

Warden John Hyde said late tonight that 30 or 40 of today's rioters would be severely disciplined.

KAISER'S SQUADRON ANCHORS IN HUDSON

NEW YORK, June 9.—Escorted by the Second division of the U. S. Atlantic fleet, with Rear Admiral Winslow in command, and three visiting warships of the German navy, the Moltke, Stettin and Bremen, arrived today and anchored in the Hudson river, where thousands viewed the fighting craft, stretched along the river for more than a mile.

There are 12 ships in all, including the United States torpedo boat destroyers. Their arrival was greeted to the city by the exchange of salutes of 21 guns as the Moltke passed the colors at Fort Jay on Governors island.

The distinguished German naval visitors, headed by Rear Admiral Rebeur Paschwitz, were immediately received by the municipality, of which they will be official guests during a four days' visit.

Sen. J. W. Alden, former mayor and chairman of a large reception committee, appointed by Mayor Gaynor, steamed out to the anchorage of the mammoth Moltke and extended to the Germans the freedom of the city. The freedom of the city includes free use of all the public transportation lines for all thousands of sailors, and automobiles for the use of every commanding officer.

REAR ADMIRAL EVERETT DIES AT HOME IN NEWPORT

NEWPORT, R. I., June 9.—Rear Admiral William Henry Everett, U. S. N., retired, died at his home in this city this morning. He had been ill for a long time with a complication of diseases.

Roosevelt Managers Not to Withdraw Pending Contests

CHICAGO, June 9.—A majority of the members of the Republican national committee, after a conference today, unofficially decided to refrain from any comment upon the statement, issued last night by Colonel Roosevelt, in which the former president denounced the action of the committee in seating the ex-Taft delegates from the Ninth Alabama district.

Today's impromptu meeting of national committee members was attended exclusively by those committee members generally accepted as being favorable to President Taft's candidacy for renomination. Certain of the committee members who attended the meeting expressed great indignation at the text of Colonel Roosevelt's statement, which they declared, was deserving of an emphatic reply. Others, however, counseled against a reply of any kind and urged their fellow committee members to ignore the statement.

Committee to Stand on Action

Scarcely any of the Taft members of the committee would discuss today's meeting after it had been concluded, one, however, said:

"We are going to stand on our actions regardless of the remarks of persons who are prejudiced and unfair. The work speaks for itself, and that is all there is to it. There is but one

COLLISION IS NARROWLY AVOIDED

President's Yacht Mayflower
Almost Run Down in Po-
tomac by Northland

TAFT WAS NOT NOTIFIED

President and Mrs. Taft and
Distinguished Guests on
Board at Time

OLD POINT, Va., June 9.—The presidential yacht Mayflower, with the president and Mrs. Taft and distinguished guests aboard, narrowly escaped a collision early today with the steamer Northland of the Norfolk and Washington line, near Point Lookout, where the Potomac river empties into Chesapeake bay.

The Mayflower left Washington last night for Hampton Roads. The Northland left Washington shortly after the presidential yacht in sight until dark, and although she is a much speedier boat, Captain Foster made no attempt to pass the president. Shortly after 10 o'clock the Northland passed the Mayflower, and at that time the Mayflower was a few hundred yards to the starboard of the Northland's course. The Northland gave a signal that she wished to pass on the Mayflower's port side, and a few seconds later, came the response from the yacht, one whistle blast, meaning that she wished the Northland to pass, not on the port side, but on the starboard.

Officers in the Northland's pilot were astonished when they heard the Mayflower's one whistle, but they were even more surprised when the Mayflower began slowly to cross her bow. It was a few seconds before they grasped just what was happening, but when they did, four or five sharp, short blasts out of the Northland's whistle, meaning "Danger, look out!" The quartermaster at her wheel was given a sharp order. He rang the wheel over, the engine of the Northland was slowed down, perceptibly. She sheered to starboard with a sharp blast, and the Mayflower made her way across the Northland's course with a quick deep green water between that quickly narrowed to a few hundred feet. Once beyond the Northland's course, the Mayflower seemed to show up, and the Northland passed on her starboard quarter.

The Northland came into Old Point at 10 o'clock this morning, on time. The Mayflower stopped at her berth at Monrovia shortly after 8 o'clock. President Taft was not told of the incident.

AUTO BAIKY, HE VISITS PATIENT IN AEROPLANE

ROCHESTER, N. Y., June 9.—A hydro-aeroplane was employed today at Hammondsport to convey Dr. P. L. Alden to Urbana, on Lake Keuka, eight miles away, where a boy was believed to be suffering from concussion of the brain as a result of a fall down stairs.

Alden's automobile balked, and he was about to telephone for another car when he saw an aeroplane soaring overhead. Hugh Robinson, the aviator, was hailed, and six minutes after the physician boarded the machine, he was at the side of his patient.

Passengers on Phantom Ship Nearly Suffocated by Gases

SEWARD, Alaska, June 9.—Passengers on the mail steamer Dora, which arrived from the westward today after passing through a hail of ashes from Katmai volcano, believed that several small fishing villages on the shores of Shelikof strait were destroyed by the eruption. The revenue cutter service at Thakak has been asked to send assistance.

The Dora steamed into the harbor early today, the white covering of ash today, the appearance of a phantom ship. The people on the steamer as she passed through the falling ashes, were nearly suffocated by poisonous gases. The Dora was in sight of Katmai when the eruption began and those on the vessel witnessed a brilliant spectacle.

It was 1 o'clock in the afternoon and the mountain was in plain view. Frequent earthquakes disturbed the water of the strait when suddenly a terrific explosion occurred in the mountain and a great mass of rocks was thrown into the air. The first explosion was followed by others in quick succession, each seemingly more terrific than the preceding. Soon a steady stream of rocks and ashes poured from the peak and spread far over the surrounding country, obscuring the sun and putting the troubled mountain from sight.

At 4 o'clock, when the Dora was 70

miles from the volcano, total darkness came and ashes began to fall in thick clouds upon the deck, covering it with a white layer three inches deep. The stifling atmosphere made the passengers violently ill. Through the night the Dora steamed through the dust-laden air and was rocked by the earthquakes that lashed the water while the mountain thundered menacingly in the distance.

At 5 o'clock Friday morning, the Dora having steamed 50 miles out of her course, clear air was reached and the passengers were able to breathe freely again. Looking back, they could see the column of smoke and ashes still pouring out of the volcano. The Dora was engulfed in darkness again Saturday as she neared Seldovia and felt her way carefully to Seward.

SEATTLE, Wash., June 9.—Three slight earthquake shocks were recorded today by the seismograph at the University of Washington, indicating that the volcanic disturbance in southwestern Alaska, which has agitated the instruments in the observatories throughout the United States in the last three days, are still in progress. Prof. Henry Landes, geologist at the university, said that the shocks recorded today were not so severe as those of yesterday, and this led him to be- lieve that the volcanic disturbance was subsiding.

FAKE TELEGRAM FAILS ENRILE

Preceded by a telegram announcing his death early yesterday, which was intended to foil his Juarez enemies, Enrile was secretly placed aboard a train in Chihuahua, arriving in Juarez last night. He would have escaped the rebel officials there but for the watchful eye of Captain Carlos Gonzalez, chief immigration officer in Juarez. Enrile was immediately arrested, Enrile, taking him before Colonel Jose Orozco, head of the garrison, who, notwithstanding the safe conduct issued by his cousin, General Pascual Orozco, the rebel commander-in-chief, made preparations to execute Enrile. On bended knees, the fugitive then begged for his life, beseeching Colonel Pascual Orozco, Sr., father of the military leader, to get into telegraphic communication with his son in Chihuahua. The elder Orozco did so, finally releasing Enrile, but early today Gonzalez, the man who blocked Enrile's escape, was found dead in a resort with a bullet through his brain.

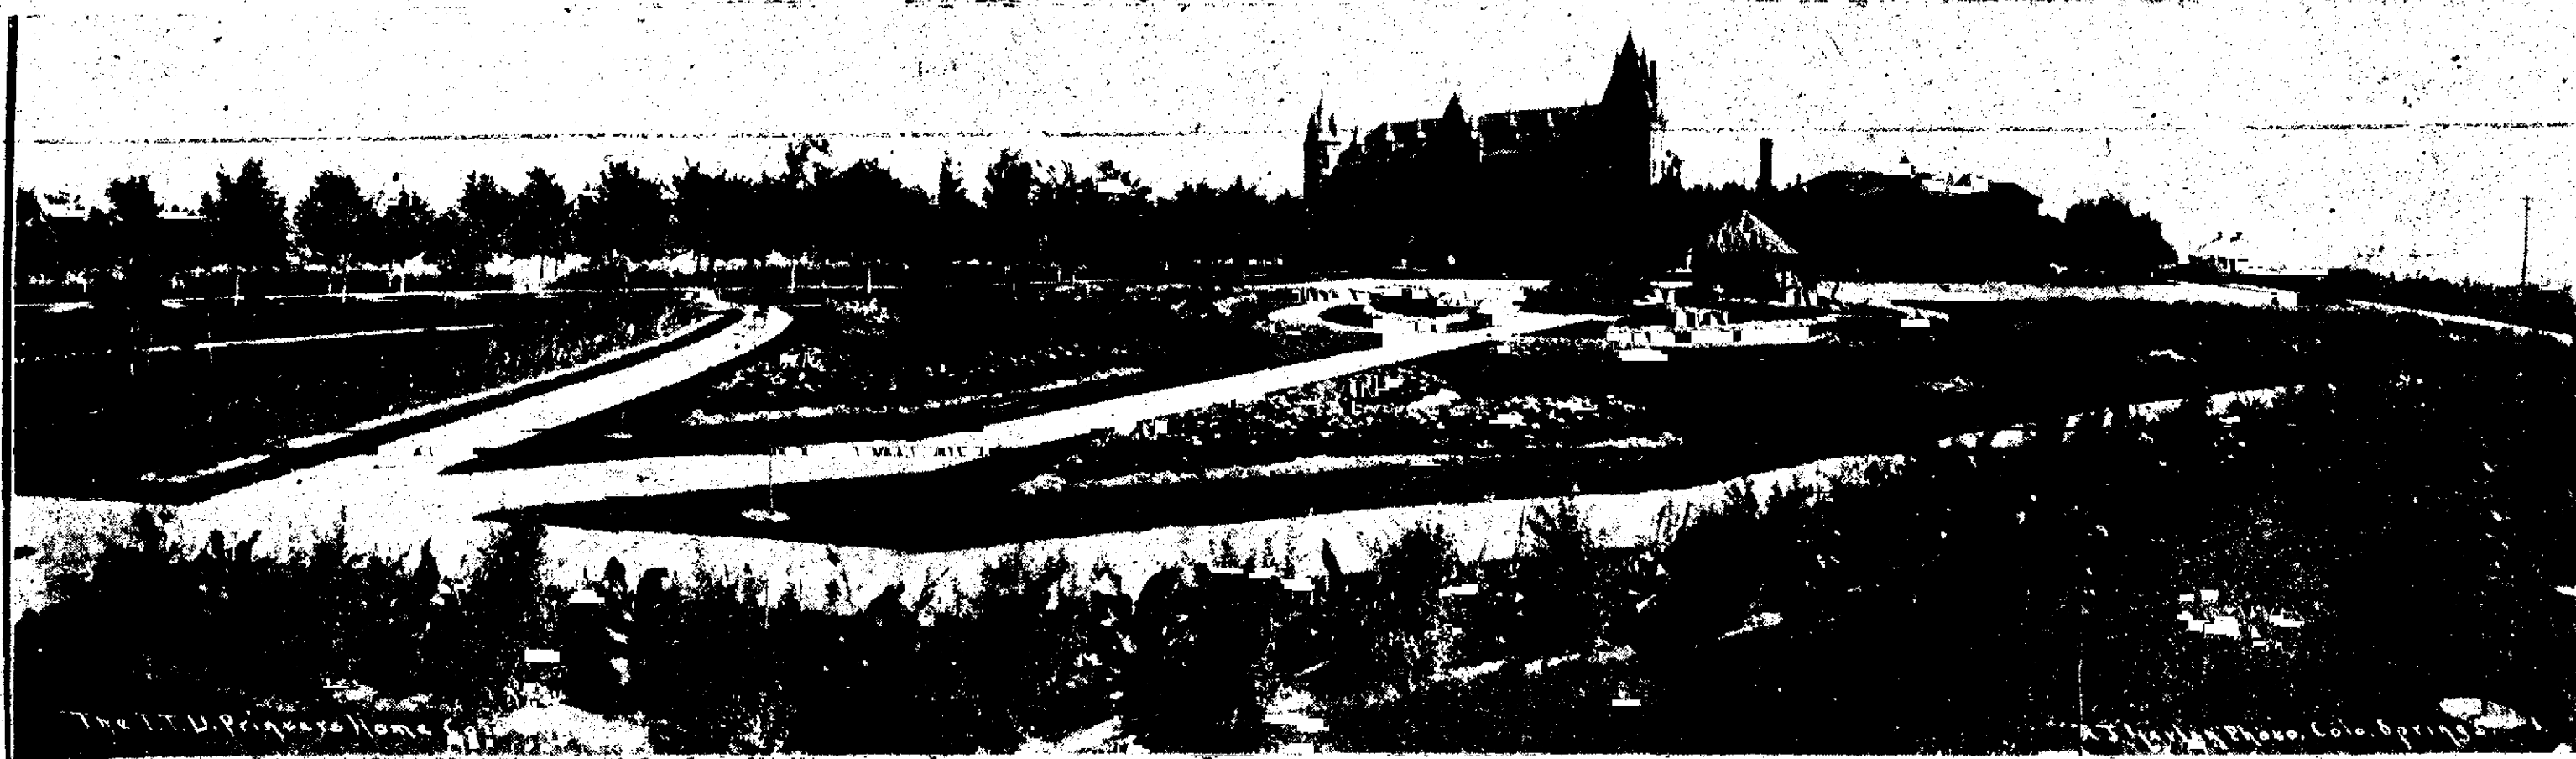

The death of Gonzalez, who was a classmate at Bucknell college of Christy Matheson, the New York National league pitcher, is tonight unexplained. His friends claim he committed suicide over a love affair, but the general impression is that friends of Enrile caused his death, fearing he might kill the latter despite the In-

T. R. Contests Will Be Presented

"Of course, we do not intend to do any such thing. Every contest will be presented by us. If a majority of the national committee is prepared distinctly to unseat Roosevelt delegates, as the Taft managers insist they will do, we are going to see that the robbery is committed in the open daylight and in full view of 90,000,000 American citizens."

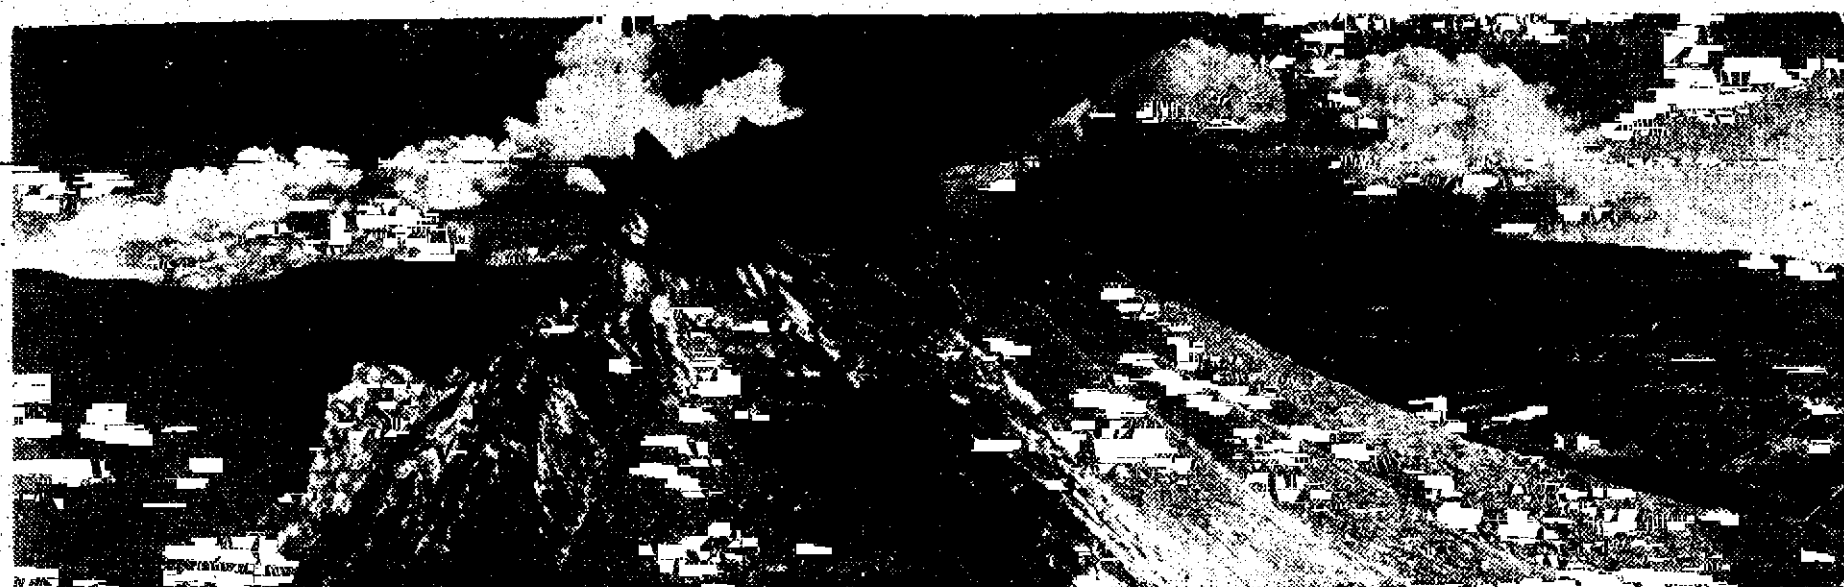

"It is perfectly apparent that the Taft managers have under perfect

CICOTTE MAY WEAR A WASHINGTON UNIFORM

By J. ED GRILLO.
WASHINGTON, June 9.—There is a slight possibility of Eddie Cicotte, until this year the best pitcher on the Boston team, being a member of the Nationals. Boston has asked waivers on Cicotte and Griffith has refused. Only last week Griffith offered to trade Dixie Walker for Cicotte, but Walker refused, though he is now asking \$100,000. Just what is wrong with Cicotte, no one seems to know. He is suffering with a knee again, but in most of the games he has started he has been good. He is a good pitcher, but he is not a good one.

RYAN AND DELIVUK WRESTLE TONIGHT

Fans who attend tonight's wrestling match at Temple theater are promised an unusually good bout in the main event, Ryan and Delivuk, and also in the semitwistup which will be a hand-to-hand battle between Frank Mirise and Frank Mirise. Youself agrees to toss the local man twice in 30 minutes or forfeit the match.

The main event, however, will be a hummer all the way. Ryan has been working on a new hold with which he expects to surprise the Austrian champion to the extent of getting a fall. The local man will have to be at his best tonight, for Delivuk is one of the hardest propositions who ever came this way. It is probable that the grapplers will weigh in at the ring, and if this is done the fans will be able to see for themselves where the weight advantage lies.

The preliminaries will start promptly at 8.30 o'clock and this probably will bring the main bout on about an hour later. Ladies, accompanied by escorts, will be admitted free.

Yale's New Stadium to Cost \$700,000

NEW YORK, June 9.—Definite plans for the new Yale stadium, which is to cost \$700,000, have been completed. The graduate committee favors a collection of \$100,000 for the stadium, but the plan is to build a stadium of 50,000 seats between \$500,000 and \$600,000.

The total cost, \$700,000, is apportioned as follows: Land, \$15,000; stadium, \$200,000; club house, \$100,000; new baseball stand on the present Yale field, \$50,000, and the remainder to be employed in developing the grounds from time to time.

High School 'Terrors' Showed Strong in 1912

By IRVIN BRUCE.
The record the Terrors made in athletics this year is one to be envied by any prep school in the state. Year in and year out the terrors are represented by good teams, but this year they were fortunate and were represented in all branches of athletics by exceedingly strong teams. Although some of the Terror teams have met defeat during the season, they ranked among the best in the state.

Baseball was the branch of athletics where the Terrors made their best record, finishing the season by winning the state championship from the crack Boulder Prep team. This is the first season the High school has been able to wrench the Colorado title away from the teams in the northern part of the state. Their baseball team not only cupped the state honors, but went through the season without a defeat.

When the football season opened the Terrors had the biggest and the fastest team that represented the school for some time, but the men were green at the game and did not begin playing together until the close of the season, when they played sensational ball. Early in the season the eleven would play great ball and the next time that they were into action their play would be marred by the most ragged kind of work.

Near the close of the season the team hit its stride and humbled the crack Longmont aggregation, which

had held the state championship for the last three years. Had the Terrors played their other games as they did the hardly day game, they would have been the state champions.

The Terrors always have been represented by excellent basketball teams and the five this year was no exception. They met the best in the state and won eight out of 12 games. This record did not give the Terrors the state title, but it rated them as one of the fastest basketball machines in Colorado.

For the last four years the Terrors have not been dangerous on the track. The team this year was the best track performers the school has turned out for the last few years. At the Colorado college invitation meet the Terrors took second place with 15 points to their credit. Two weeks later at the state meet in Boulder the team carried away seven points but this did not give them a place. With two exceptions the Terrors will have the same team for track next year, and they should make a much better record.

This year marks the passing of some of the best athletes that ever wore the Brown and White. The Terrors will miss the services of these players, for they have no men who can fill their places. Graduation played havoc with the championship baseball team, for four stars will be lost to the team. If football the Terrors did not fare so badly, for the majority of the men on the eleven are under-graduates.

New York Fight Law Is on Shaky Ground

By T. S. ANDREWS.
MILWAUKEE, Wis., June 9.—It is over 10 years since the repeal of the famous Horton law in New York state, which permitted the holding of 25-round bouts, and it will be more than 10 years before another law permitting boxing matches is passed in the Empire state if the promoters and managers in the local city succeed in killing the game, which they are apparently doing. Judging from the ridiculous tangles they are getting into, the gradual methods of some of the promoters when the law first went into effect last fall came near killing it right off the reel, but the boxing commission had the good sense to interfere in time and save the sport. Then came numerous squabbles, which were ridiculous in the extreme, and it has required some good hard work on the part of those who are really anxious to keep the game on a sound and legitimate basis to right the errors of the trouble-makers. The last break came when one club instructed the referee to render a decision, which was in violation of the law, it made no difference whether one of the commissioners had suggested that a decision might be given or not, it was against the law and unless the entire commission favored such a procedure it was most unwise to attempt to force it. Personally, I would favor the giving of decisions in 10-round bouts, although in contests of six rounds it is a hard matter at times to give a verdict, as the boxers are usually pretty well matched and unable to gain much headway in that time, unless the match should be between not well matched men. It gives more satisfaction to the spectators and helps the men who like to bet on the bouts, but from a club standpoint not the slightest attention should be given to the betting and all kinds of sport. As long as the law prohibits the giving of decisions, the promoters and managers alike should be the ones to uphold the law in every particular, but there is always some one who likes to overstep the bounds and get the "edge" on the other fellow. And as a rule such actions usually result disastrously to the game. The commission has done a great deal of good for the game in New York state and if left alone will do even more good. Other states are getting ready now to follow the lead of New York and pass such a law as the Fraxin code, Illinois and Wisconsin being among those now waiting for the convening of their legislatures.

Thirty-One Prepare for Chalmers Tour

DENVER, June 9.—Thirty-one entrants to date have announced intention of participating in the third annual Chalmers (owners') consistency run, to be held between Denver and Canon City starting Wednesday morning. It is expected that before the time set for the start, at least a dozen more will have been listed for the run. The first lap of the run will end at the Antlers hotel, Colorado Springs, where the tourists will take lunch. The arrival at Canon City is scheduled for Wednesday night. Thursday the tourists will be the guests of the Canon City Business Men's association, being taken for a trip over the Sky Line drive in the morning, while in the afternoon a program of automobile races will be staged for their benefit.

The award to the winning contestant will be a silver loving cup donated by the McDuffee Motor company.

Those who will participate are Clarence C. Campbell, E. B. Field, Jr., Willis V. Elliott, James A. Curran, Jack Hendricks, C. J. Well, Miss Josephine Pratt, F. C. Dreher, Fred E. Willard, A. W. F. temple Tuesday afternoon at 2:30, under the auspices of Pike's Peak lodge No. 34, of which he was a prominent member. The Y. M. C. A. men, of which he also was a member, will attend. The Rev. S. E. Brewster and the Rev. H. L. Kohler will officiate, and interment will be in Evergreen cemetery.

The funeral of Leon Jacquet, who was killed Saturday afternoon by being thrown from a horse, will be held tomorrow afternoon at 2 o'clock at Masonic temple. Members of El Paso lodge are requested to meet at the lodge rooms at 1:30 o'clock in the afternoon. Mr. Jacquet will be given Masonic burial, and the services will be held from the temple, to which all friends are invited, as well as visiting Masons.

The funeral of Russell Ernest Fifth, 15-months-old son of Mr. and Mrs. E. Fifth of Colorado City, was held yesterday afternoon at the undertaking rooms of Fuller & Boone. Interment was in Fairview cemetery.

NOT IN THE NEXT WORLD

KANSAS CITY, Mo., June 9.—Pastor Russell spoke twice here today.

quoting his discourse from the text: "Saved as by fire" (I Corinthians III, 15). He said in part: The Catholic thought of purgatory has been opposed by Protestants upon the plea that purgatory is not mentioned in the Bible. Let us admit that no such purgatory as Dante pictured has any volume of foundation. Let us admit that not all that Catholics have claimed respecting purgatory is either scriptural or logical.

But let us admit, also, that there are scriptures (of which our text is one) which tell of a salvation by "fire" that evidently is not the salvation in which the elect of God will participate as "saints." Jesus said: "I have not yet come into the world to destroy the flesh, but to save it." The principal one used by our Catholic brethren in support of their purgatory. But if the pastor did not agree with the Protestants that there is no purgatory taught in the Bible, neither did he agree with the Catholics respecting the kind of a purgatory, for he proceeded to show that his text referred, not to a place of suffering, a purgation that existed in the apostle's day, but that the apostle was here speaking prophetically, of the end of this gospel age, foretelling a purgatorial condition that would come after men have died, not in another world, but in the present life and on this earth.

Indeed, said Pastor Russell, not only is the fire of this text symbolical of trouble, but the same is true of nearly all that is said about fire in the Bible. There is a process of destruction, consumption. God's righteousness is spoken of as a consuming fire which burns against all sin and unrighteousness. Likewise man's unrighteousness as fire burns injuriously against all good things; as, for instance, when we read: "The tongue is a fire" which "sets afire the course of nature" (James III, 6). Jesus used the word fire in many of his parables, saying: "I am come to send fire on the earth."

Purgatory in Our Text.

The context shows that the apostle is discussing the church in her earthly estate; that some of the brethren would not at the time appreciate the difference between "the gold, silver and precious stones" of the divine promises and the "wood, hay and stubble" of the age when the Lord would specially test his people and when the tests would be severe and crucial, like fire. In that day wood, hay and stubble would be consumed; but the gold, silver and precious stone characteristics of the true faith and proper character building would remain. We are not to understand him to mean that doctrines are all-important, but rather that they are reflected in the character development of the individual, who, without them, would be unable to stand in the testings that will come in the close of this age.

The apostle points out, however, that all who build their faith on Christ will eventually be saved, no matter how much error they may get into—even though their faith structure is wrong, and will be consumed in the fiery trial. Christ is the foundation. All who build faith on him in full accord with the divine revelation, obediently, will become joint heirs with the Redeemer in his kingdom, while those who build their faith on him, and maintain it even through error, will be eventually saved, though to a lower salvation. "Theirs will be a purgatorial experience—purifying, sanctifying, fitting them for an interior blessing on the spirit plane."

Apparently we are now living in the very time mentioned in our text. Many of God's people understand the fiery trials of "higher criticism" and "science" falsely so-called, experienced a loss of all the faith they possessed, because only the wood, hay and stubble of human tradition, and not the gold, silver and precious jewels of the divine revelation. Nor is this burning at an end. Some of its most trying experiences are just before us, according to the scriptures.

St. Paul elsewhere, referring to the same time, inquires, "Who shall be able to stand?" And he answers that only those may stand who will "put on the whole armor" of divine faith as provided for the soldiers of the cross in the battle for God's world. Others will experience a terrible defeat. We thank God, however, for the assurances of his word that to many the experiences will work out ultimate blessings, purgatorial purification to all who maintain their trust in God and in the redemptive work of Jesus. However blind may be their faith, "they shall be saved so as by fire."

Purgatory for Others, Also.

The pastor declared that many Protestants, recognizing the Bible

YOUNG MOTHERS

No young woman, in the joy of coming motherhood, should neglect to prepare her system for the physical ordeal she is to undergo. The health of both herself and the coming child depends largely upon the care she bestows upon herself during the waiting months. Mother's Friend prepares the expectant mother's system for the coming event, and its use makes her comfortable during all the term. It works with and for nature, and by gradually expanding all tissues, muscles and tendons, involved, and keeping the breasts in good condition, brings the woman to the crisis in splendid physical condition. The baby, too, is born up to be perfect and strong where the mother has thus prepared herself for nature's supreme function. No better advice could be given a young expectant mother than that she use Mother's Friend; it is a medicine that has proven its value in thousands of cases. Mother's Friend is sold at drug stores. Write for free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

teaching of justification by faith, fail to note that even when the Lord graciously forgives the sinner and gives him of his favor, he often still gives him tests or punishments for such portion of his transgressions as would be represented by any willfulness on his part. Immunity from punishment for transgression is granted only on the score of inherited weaknesses and bequests. In this sense of the word, then, all Christian people receive purgatorial experiences, chastisements, such St. Paul urges, saying: "If we should judge (chasten) ourselves, we should not be judged (corrected) by the Lord. But when we are judged of the Lord we are chastened (given purgatorial experiences), that we might not be condemned with the world—to share with the world in the experiences which will come to mankind in general under the Messianic kingdom."

The great time of trouble which came upon the Jews in the end of their age, ended their national life, and it has continued with the Israelites for all the centuries since. It will continue until the establishment of Messiah's kingdom, when the new covenant of Jeremiah xxxi, 31, will go into effect, carrying with it the cancellation of all sin and the blessing of Israel and all the nations of the earth.

But before that glorious day, the scriptures intimate clearly, God will have a further reckoning with the Gentiles, and especially with the portion called Christendom. Richly favored, the responsibilities have been proportionate. The squinting of that account means "a time of trouble such as never was since there was a nation." But it will not be in another world nor in another life nor eternal in duration. Instead, God will merely permit the race, in selfishness of heart rejecting his counsel, to wreak present retaliation to such an extent that, unless these days were shortened, they would be "as fire." But on account of the elect those days will be shortened, by the establishment of God's kingdom, to restrain evil, to enlighten the world, and to assist the willing and obedient back into the image and likeness of God.

What the Press Agents Say

"MAM'ZELLE TONIGHT"

Everything is in readiness for the first production of "Mam'zelle" at the Opera house tonight. James Hawley and his company have been working hard the past week and a perfect performance with every detail carried out may be expected. A great deal of curiosity has been aroused and much speculation is being indulged in as to just what the sensational scene may be. However, tonight will unfold the entire plot, and we trust no one will be shocked nor the assistance of the police needed.
